

Garb-el Products Company

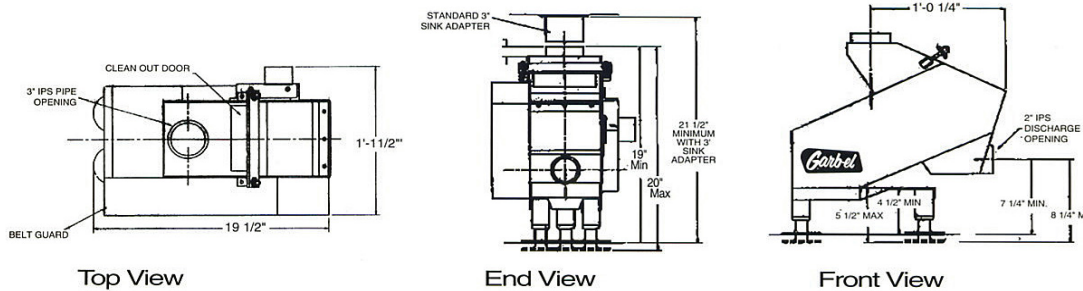

Promoting Environmental Responsibility Since 1950

Garb-el Standard Profile Grinders

Model	Capacity (Avg Lbs./Hr.)
SPG-100	150 lbs./hr.
LPG-100	150 lbs./hr.

Garb-el Low Profile Grinders

Our SPG and LPG models are specifically designed for supermarkets, restaurants and deli's where space is limited. These units process plate waste, food scraps, small bones and pits quietly and efficiently and can be manufactured as stand alone units or can be installed under a stainless steel workstation.

Benefits of Standard Profile and Low Profile Grinders:

- Small footprint
- Electrical: 3/4 or 1 horsepower, 208, 230 and 460 volt available, 3 phase (single phase available)
- No odor, leaks or cleaning
- Energy efficient
- Maintenance provided by nationwide network of service agents
